

look inside.  
build ecologically.

## Declaration, quality assurance and listing costs

A product declaration on baubook is basically free of charge. The initial quality assurance of the product data by baubook and the annual product listing fee are subject to a charge. All listing fees are charged on a daily basis (from the activation of the product) until the end of the current year. The listing is automatically extended for a further year - unless the automatic

extension is deactivated or the product is deleted beforehand. All product declarations, changes, listings and dealer assignments are combined into one invoice where possible. This will be sent to you by e-mail within around 14 days of receipt of your documents. Fees already incurred cannot be refunded even in the event of a negative review.

Product registration or update by baubook You supply the product data, we take care of the rest.	Price € / Product		
	1.-5.	6.-20.	from the 21.
<b>Graduated prices</b> (Price 1.-5. + Price 6.-20. etc.)			
Product registration by baubook GmbH	160,-	160,-	160,-
Product update by baubook GmbH	107,-	107,-	81,-
EPD data entry via import file	102,-	67,-	67,-
Independent declaration (without support)	free	free	free

Quality assurance for product on initial declaration Every product on baubook is validated and quality assured.	Price € / Product				
	1.-5.	6.-20.	21.-45.	46.-60.	ab 61.
<b>Graduated prices</b> (Price 1.-5. + Price 6.-20. etc.)					
General products	98,-	88,-	73,-	73,-	73,-
additionally for composite products (e.g. windows)			43,-		
Heat pumps, biomass boilers	57,-	50,-	43,-	43,-	43,-
Superstructures			113,-		

Quality assurance for product changes or updates Relevant changes require quality assurance by baubook.	NEW	
	Product up to date *	Product not up to date
General products, heat pumps, biomass boilers	free	67,-
additionally for composite products (e.g. windows)	free	43,-
Superstructures	free	56,-

- \* For „products that are up to date“, baubook quality assurance is FREE of charge for a product change or product update from 01.01.2024! A product is considered up-to-date if the date of the last product change (baubook quality assurance) is not older than 2 years. We want to offer manufacturers an incentive to
- keep their products up-to-date on baubook and save costs at the same time.

Product listing - Listing fee Product listing on all baubook platforms.	Price € / Product / Year				
	1.-5.	6.-20.	21.-45.	46.-60.	ab 61.
<b>Graduated prices</b> (Price 1.-5. + Price 6.-20. etc.)					
General products, windows, heat pumps, boilers	117,-	95,-	75,-	7,-	free

## Tools and licences

Licence costs baubook tool per year	Single (1 Tool)	Double (2 Tools)	Triple (3 Tools)
eco2soft – life cycle assessment of buildings	174,-	232,-	288,-
baubook online produktmanager	174,-	232,-	288,-
AWR – Amortisation and profitability calculator	174,-	232,-	288,-
construction calculator	free	free	free
Special conditions for students	Price upon request		

Licence fees universities for baubook „eco2soft“	Combi price / Year
5 research accesses and 100 student accesses	1.030,-
10 research accesses and 200 student accesses	1.250,-
20 research accesses and 400 student accesses	1.460,-
50 research accesses and 1.000 student accesses	1.900,-

All prices are in euros plus VAT at the statutory rate. For the first invoice, the fees are calculated to the day (14 days from the order date) and charged pro rata to the annual costs. Subsequent years will be invoiced on a full-year basis. Cancellation of the contract is possible until 31 December. Years already started will be invoiced in full. There will be no reimbursement.

## Brief information on the baubook tools

**baubook eco2soft** is an online tool from baubook GmbH that can be used to easily and quickly create life cycle assessments for buildings and clearly display the expenditure for construction, renovation and disposal.  
[www.baubook.info/eco2soft](http://www.baubook.info/eco2soft)

The aim of the **baubook amortisation and profitability calculator (AWR)** is to calculate the ecological amortisation of insulation measures, especially in renovation. The focus is on a life-cycle approach - the costs of producing the insulation system are compared with the savings in heating over the period under consideration.  
[www.baubook.info/awr](http://www.baubook.info/awr)

The **baubook Online Product Manager** is a processing tool to simplify product management within building certification programmes. The products used are submitted for approval on the construction side for each trade. The products are then checked by the product manager and either approved, rejected or alternatives to the selected product are suggested.  
[www.baubook.info/produktmanager](http://www.baubook.info/produktmanager)

The **baubook calculator for building components** enables the composition of walls, ceilings, floors, roofs and windows using the quality-assured products and reference values from the baubook.

## Manufacturer platform - product presentation in the database

We offer manufacturers the possibility to operate an individual manufacturer platform on the baubook homepage. This means that manufacturers are represented exclusively and prominently and can present the listed products clearly and with detailed information. In

addition, further contents (sales structure of the company, current information, news, dates, download area, etc.) can be added to the manufacturer platform.

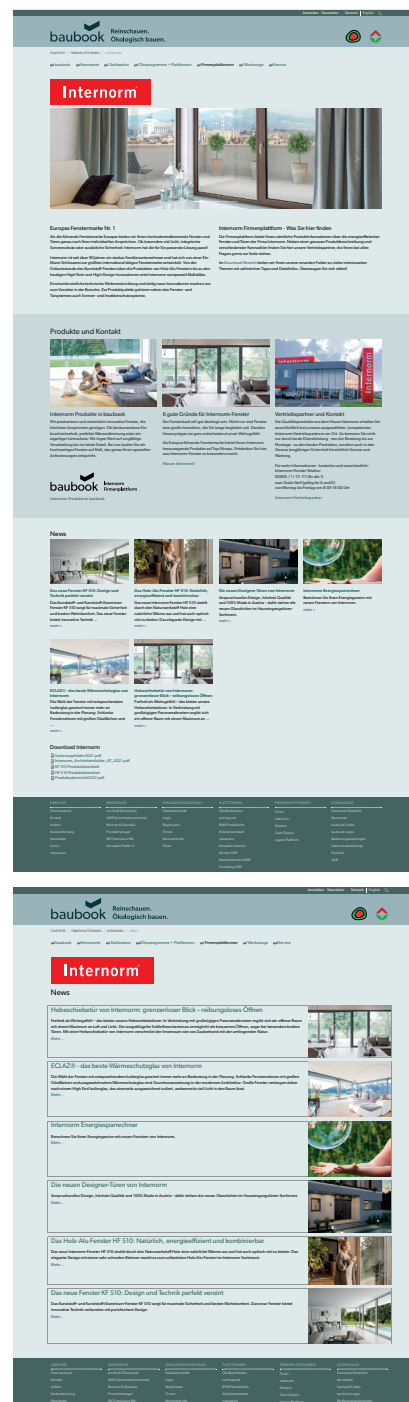

Fees for manufacturer platform	Price in €
Platform creation including training (one-time)	4.880,-
Listing costs for platform (annual)	3.140,-

### Advantages with a baubook manufacturer platform:

- exclusive communication and presentation opportunities for manufacturers
- own communication channel on [www.baubook.info](http://www.baubook.info)
- presentation possibility of products and services in the individual area
- direct communication with the baubook target group (all baubook users)
- strengthening of own brand presence by displaying logos, photos, documents, products, news, ...
- contents are independently maintainable and modifiable
- direct linking to the listed products in baubook
- company presentation already on the baubook start page with company logo and short text

right: Manufacturer form entry page and news overview using the example of „Internorm“

## Company presentation

With the new „company and dealer presentation“, we offer customers an attractive opportunity to present their products and companies on baubook. Manufacturers or dealers are prominently listed and individually presented. Listed or traded products are directly linked to the baubook product database and thus easy to

find. Companies present themselves actively and can communicate content directly to the baubook target group. The publication of the content requires the agreement to our terms and conditions as well as an active product in the baubook database.

**NEW**

Fees for company presentation	Price in €
Creation fees (one-time)	1.480,-
Listing fee (annual) – incl. one change update	780,-

### Advantages Company and dealer presentation:

- exclusive presentation possibility of registered products and companies for manufacturers and dealers on the baubook platform
- mediation of individual company content on [www.baubook.info](http://www.baubook.info)
- strengthening of your own brand presence by displaying logos, photos, documents, products, information, prices ...
- direct linking to the listed products in the baubook database [www.baubook.at/zentrale](http://www.baubook.at/zentrale)

The screenshot shows the baubook website interface for company presentation. At the top, there's a navigation bar with 'baubook Reinschauen. Ökologisch bauen.' and language options. Below that, a 'LOGO' section is highlighted, with the text 'Moderne Unternehmen präsentieren sich gerne auf baubook'. There are two images: one showing a product catalog and another showing a bathroom fixture. Below these, there's a section titled 'Stellen Sie Ihr Unternehmen auf baubook vor. Das könnte Ihre Seite sein.' followed by a grid of four categories: Unternehmensleistung, Innovation, Produkte, and Verarbeitung. Each category has a small image and a description. At the bottom, there are sections for 'Produkte im baubook', 'Referenzen', 'Vertriebspartner', and 'Kontakt'. The footer contains various links like 'Über uns', 'Werkzeuge', 'Deklarationszentrale', 'Plattformen', 'Firmenplattformen', and 'Downloads'.
