

Indoor CONIPUR KF - Mixed Elastic Sport Surfaces

System	Key Features	Total height	Fire Behaviour EN 13501	Tested	
				Emission	Sports Functionality EN 14904
CONIPUR KF - Mixed-Elastic Sports Floor - with a special Foam Mat covered with hard-elastic and soft-elastic PU Coating					
similar to the point-elastic flooring this surface immediately offsets the impact forces like a shock absorber - reducing the risk of injury. With its area-reinforcing hard coating it also provides high stability thus minimizing the risk of injuries. The force reduction is $\geq 45\%$ but $< 55\%$					
CONIPUR KF pure	low emission			✓	✓
CONIPUR KF protect+	low emission and flame retardant		✓	✓	✓
