is submitted by the manufacturer a factory production control and to the further testing of samples taken at the factory in accordance with a prescribed test plan. The notified body BCCA has performed the initial type-testing for the relevant characteristics of the product, the initial inspection of the factory and of the factory production control and performs the continuous surveillance, assessment and approval of the factory production control. This certificate attests that all provisions under the responsibility of the approval body regarding the attestation of factory production control described in chapter 8 of

ETA-06/0206

were applied and that the factory production control system fulfils the prescribed requirements.

This certificate was first issued on 01.02.2007 and remains valid as long as the conditions laid down in the harmonised technical specification in reference or the manufacturing conditions in the factory or the factory or the factory production control itself are not modified significantly or at the latest on 31.01.2012. On any request, BCCA will give information about the validity of the certificate.
