Re: Revised Official Listing
NSF Nonfood Compounds Registration Program

Dear Mr. Schiebenedes:

It is my pleasure to enclose your revised Official Listing. Please review it for accuracy, including footnotes. If you have any questions or concerns about this revision, please promptly contact your NSF Registration Project Manager.

ADOLF WÜRTH GMBH & CO. KG is authorized to use the NSF Registration Mark for products specified on this Official Listing.

As an NSF Listed Company, you are responsible for compliance with all NSF requirements for Registration services. Please note that your Listed products must bear the NSF Registration Mark unless specifically exempted by policy.

The following change has been made to your Official Listing: added WURTH@saBesto KLEBT + DICHTET POWER.

Sincerely,

A handwritten signature in cursive script that reads 'Marie S. Belanger'.

Marie S. Belanger
Assistant Manager, Certification Records

Encl. Revised Official Listing
Registration Letter(s)

N11503

OFFICIAL LISTING

NSF International Certifies that the products appearing on this Listing conform to the requirements of the NSF Nonfood Compounds Registration Program

This is the Official Listing recorded on April 6, 2006.

**ADOLF WÜRTH GMBH & CO. KG
REINHOLD-WÜRTH-STR. 12-16
BADEN-WÜRTTEMBERG
74650 KÜNZELSAU

RE: WURTH® saBesto KLEBT + DICHTET POWER
Category Code: P1
NSF Registration No. 136996

Dear Mr. Marlies Schiebenedes:

NSF has processed the application for Registration of **WURTH® saBesto KLEBT + DICHTET POWER** to the NSF Registration Guidelines for Proprietary Substances and Nonfood Compounds (2004), which are available at <http://www.nsf.org>. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling.

This product is acceptable for use as an adhesive (P1), for structural bonding in and around food processing areas, where its use is not intended for direct food contact. Before using this compound, food products and packaging materials must be removed from the area or carefully protected. This compound must be used in a manner so that all odors associated with the compound are dissipated before food products or packaging materials are re-exposed in the area.

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (<http://www.nsf.org>). The NSF Registration Mark can be downloaded from the NSF website, at http://www.nsf.org/business/about_NSF/nsf_marks_download.asp.

NSF Listing of all registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF web site, at <http://www.nsf.org>. Changes in formulation or label, without the prior written consent of NSF, will void registration, and will supersede the on-line listing.

Sincerely,

A handwritten signature in black ink, appearing to read "Carmen Grindatti". The signature is written in a cursive style with a horizontal line extending from the end.

Carmen Grindatti
